

# You are invited to a Beyond Tolerance Unity Leaders Luncheon

**Community and Religious leaders are coming together, challenging each other to look beyond racial tolerance towards transformation.**

It is our vision to find a way to transform our community by building relationships and respecting all people through truth and justice. To that end leaders across our area are seeking to partner with various community groups, governmental agencies, religious congregations and individuals that truly reflect our communities of color and culture.

**Come and see:** Beyond Tolerance was formed in the fall of 2015. Since that time there has been a pulpit exchange program, two city wide rallies that included an 80 voice choir singing songs from diverse cultures, a ribbon tying campaign, inter-faith dinner dialogues and more. Come and hear about what this movement has already produced.

**Share with others:** The Beyond Tolerance movement is not just about creating something new, but also about connecting the great work that so many people are already doing to heal the racial divides in our city. There will be time to begin to share what you are already doing. We want to help support each other as we engage in unique ways to strengthen relationships within our community.

**Go and do:** Some things that happened in the past two years will happen again in this coming year (2018). However, we also know that there are more opportunities out there. We will ask for your ideas on how to continue the work of healing racial divisions in our community, and we will ask for your help in making those opportunities a reality.
